Net Promoter Score (NPS)

$$\text{NPS} = \% \text{ 😊 } - \% \text{ ☹ }$$

1. **Detractors** -- They are not particularly thrilled by you. They, with all likelihood, won't choose to engage with you again, and could potentially damage your reputation through negative word of mouth.
2. **Passives** -- They are somewhat satisfied but could easily switch to a competitor's offering if given the opportunity. They probably wouldn't spread any negative word-of-mouth, but are not enthusiastic enough to actually promote you.
3. **Promoters** -- They love you. They are your repeat customers. They are enthusiastically evangelical about you and recommend you to others.

Dear Ahmed,

We want your feedback! Using the [Campus Pulse Survey](#), our goal is to listen and understand more about your current experiences at Stony Brook University. Your feedback will help us improve our services and your experience. Your participation is voluntary and the survey is **only one question** (with an option to share additional feedback as a comment).

You can participate by responding to the question below:

Based on your experiences this week, how likely are you to recommend Stony Brook University to a friend or peer?

Not at all likely Extremely likely

0 1 2 3 4 5 6 7 8 9 10

Or to respond via your web browser, you can [click here](#) or copy and paste the following URL into your browser:

We know you have a lot going on so as a **thank you for your participation**, any student who participates will be entered into a **monthly raffle for some awesome SBU swag** pictured below!

Incentives

Participants who complete the survey...

...before 11:59 pm this Thursday 5/25 will receive **10 raffle entries**

...before 11:59 pm this Saturday 5/27 will receive **5 raffle entries**

...before 11:59 pm on Monday 5/29 will receive **2 raffle entries**

...after 11:59 pm on Monday 5/29 will receive **1 raffle entry**

Overall, your participation should take no longer than 2 minutes and you can choose to leave any question unanswered.

We truly appreciate your time and thank you in advance!

	04/30/24	8	Passive	The campus is beautiful, the weather was super nice and it is quite an amazing spectacle. Overall, I've only been doing a lot of work in my dorm so I do not participate much in student life. However, I would recommend this school for anyone that wants r..
	04/30/24	7	Passive	I was able to attend an event at the Wang Center and get to experience different cultural mediums. However, when it comes to getting food on campus during lunch hour it can be difficult.
	04/30/24	6	Detractor	It seems a bit boring for many people. Especially for people who have been on campus for a few years. The main complaint is that "there is nothing to do". I've heard this from many peers who have dorned.
	04/30/24	9	Promoter	I love my job and I believe in this healthcare and academic system.
	04/30/24	7	Passive	Stony Brook has great places to sit down and study/have time to yourself. Most of the instructors I have had this week have been invested in my learning experience and I feel I am being prepared for my desired career path.
	04/30/24	6	Detractor	Good experience, but PhD research assistants should receive a living wage
	04/30/24	5	Detractor	all eyes on SBU admin responding to calls for solidarity with Gaza! Universities standing against their own students are NEVER on the right side! SBU has an opportunity to lead by supporting the movement for a free Palestine!
	04/30/24	3	Detractor	There has been a rise in anti-zionism/anti-semitism lately which has made it difficult to be a Jewish student on campus. The BDS resolution was passed by USG just recently, and as soon as tensions began calming down "encampments" started forming. Ple..

Lessons Learned

1. Responses were stable by wave (a week) but not within waves (daily and moving averages shorter than a week were not stable)
2. Late respondents were much more negative
3. Sentiment tends to decline over the course of a fall or spring semester
4. In year 2, we found most useful distribution was comment push to senior academic and student affairs leaders.
5. AI might be a solution to coding responses but the jury is out

Late respondents have been much more negative

Pulse Survey Comment Monitoring Dashboard

Survey Comments, Prior Day - 4/23/2024

This list shows yesterday's comments provided on the weekly campus pulse survey. The survey is distributed on Tuesdays during the semester, with a reminder on Thursdays. It asks two questions:

Q1 - Based on your experiences this week, how likely are you to recommend Stony Brook University to a friend or peer?

[0 - Not at all likely -- 10 - Extremely likely]

Q2 - Please consider sharing why you selected your previous rating. [Open Text]

Summary statistics are provided at the top of the page. Net Promoter Score (NPS) indicates the percentage of Promoters (rating of 9 or 10) less the percentage of Detractors (rating of 6 or lower). A NPS of 100 would indicate all responses were promoters, where a NPS of -100 would indicate all detractors.

Rating	College / School	NPS Group	Comments
10	Arts & Sciences, College of	Promoter	Excellent experience so far
10	Arts & Sciences, College of	Promoter	I like how inexpensive it is for the quality education, a beautiful campus, and engaging activities and events.

7	Arts & Sciences, College of	Passive	I hung out with my friends and had a good time.
7	Arts & Sciences, College of	Passive	I am satisfied with my experience at Stony Brook daily. Especially with the warmer weather, there is so much more activity on campus! My frustration throughout the week (which is deducted from my rating) is certain classes only cover easy example problems, leaving the student to figure out much more difficult information on their own. I would suggest that professors go over all of the material (easy and hard) to better prepare students for the material they will be tested on.
6	Arts & Sciences, College of	Detractor	Funding opportunities are few and far between; it is hard to conduct research as a grad student without the financial support
6	Marine & Atmos Sci, School of	Detractor	it has a good academic reputation and a lot of on campus events and clubs to keep students involved.
6	Business, College of	Detractor	This semester was really not good. The teachers were not really on target with the syllabus- I felt like I was not learning unless I go home and have to teach myself. No teachers wanted to answer questions or make things understandable for the students. All reviews were awful and did not help with the exams. Every class has to curve their grades because nobody is grasping the concept. I feel like I'm walking on glass egg shells all semester. I can go to as much extra help as possible and attend all the extr..
6	Health Sciences Center	Detractor	Affordable institution with a solid reputation, but being a remote student has its challenges and I don't believe I am getting the full experience and advantage.
4	Arts & Sciences, College of	Detractor	Some of these professors suck at organizing their classes and are awful and balancing work through out the semester.
3	Arts & Sciences, College of	Detractor	I feel as if this school doesn't really listen to student voices, especially when it comes to pressing issues. There are students who peacefully protested, got arrested, and charges have yet to be dropped, this school can do better!

Final thoughts

Iteration and patience have been important

Requires bandwidth in survey analysis unit

We are not yet good enough with artificial intelligence tools to produce verifiable and replicable results

Conversations with senior leadership is important throughout about governance, privacy, communication
