* Data collection and reporting standards for this element have been inconsistent over this period, at times asking for "sex," for "gender," or simply "are you male or female?" In all instances, institutions were required by the US Dept. of Education to report individuals within the binary of male/female, even when individuals offered a nonbinary response. Counts follow reporting standards for the Integrated Postsecondary Education Data System (IPEDS) except as described below and include employees on the institution's payroll as of Nov. 1. Counts include employees with faculty status whose primary occupation is instruction, research, public service or a combination thereof. Administrators and librarians with faculty status are not included. Staff members who teach but with primary occupations in other areas are not included. Total counts 2006-2016 restated to match administrative data and will reflect small variances from IPEDS; fall 2017 and later total counts reflect those reported to IPEDS. Full-Time Equivalency calculated as 1 FT = FTE, 1 PT = 1/3 FTE. Data Source: SBU Data Warehouse ReportEmployeeJobRecords.
