Counts follow reporting standards for the Integrated Postsecondary Education Data System (IPEDS) except as described below and include employees on the institution's payroll as of Nov. 1. Counts include employees with faculty status whose primary occupation is instruction, research, public service or a combination thereof. Administrators and librarians with faculty status are not included. Staff members who teach but with primary occupations in other areas are not included. Total counts 2006-2016 restated to match administrative data and will reflect small variances from IPEDS; fall 2017 and later total counts reflect those reported to IPEDS. Prior to 2010 data for race/ethnicity categories were collected and reported using definitions from IPEDS that allowed individuals to identify only a single race/ethnicity. In 2010 and later, individuals were asked to report ethnicity and race separately, with the potential to indicate more than one race; these tables capture those data, without regard to visa or citizenship status and will add to more than 100 percent. The reported race/ethnicity categories of international faculty are included in counts and percentages. Percent of total uses the total number of faculty as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove from the denominator nonresident alien faculty and those with unknown race/ethnicity.

Counts follow reporting standards for the Integrated Postsecondary Education Data System (IPEDS) except as described below and include employees on the institution's payroll as of Nov. 1. Counts include employees with faculty status whose primary occupation is instruction, research, public service or a combination thereof. Administrators and librarians with faculty status are not included. Staff members who teach but with primary occupations in other areas are not included. Total counts 2006-2016 restated to match administrative data and will reflect small variances from IPEDS; fall 2017 and later total counts reflect those reported to IPEDS. Prior to 2010 data for race/ethnicity categories were collected and reported using definitions from IPEDS that allowed individuals to identify only a single race/ethnicity. In 2010 and later, individuals were asked to report ethnicity and race separately, with the potential to indicate more than one race; these tables capture those data, without regard to visa or citizenship status and will add to more than 100 percent. The reported race/ethnicity categories of international faculty are included in counts and percentages. Percent of total uses the total number of faculty as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove from the denominator nonresident alien faculty and those with unknown race/ethnicity.
