Lab-to-fab Innovation Fast Track (LIFT)

Through the LIFT program, NORDTECH is excited to make their hub's capability available to their members so they can test a good idea. This is not a grant opportunity; NORDTECH will facilitate access by running wafers, covering the cost of tool time or staff time, or subsidizing test/measurement services. Any headcount, supplies, or consumables would not be covered. NORDTECH is looking for small experiments which would require less than one year's time, or potentially a series of such experiments, that: Utilize their facilities, especially ideas that require the use of multiple facilities; Align with the overall Commons mission of accelerating lab-to-fab technology transitions; Obtain proof-of-concept data that could help land larger grant funding; or can be executed and completed fast.

Deadline: September 5, 2025
